“LOcal LAnguages”

IES LAUAIZETA IKASTOLA BHI. Donostia. EUSKADI
Leon Còrdas Calandreta. Montpellier. Occitanie
Dominik-Brunner-Realschule-Poing. Poing. Bayern

this is a project about LOcal LAnguages and how they contribute to build our identity as a community together with our culture and traditions. Students from 3 different European regions will collaborate in this safe space in 3 main blocks: Identity, Language and Culture. Students will work in national and international groups to search for information and collaborate in forums to share the most significant elements of their languages, traditions, and customs. Some will even have the opportunity to visit their partners and enjoy local folklore, which they can then share with their classmates. Their research will result in a basic dictionary of local languages, a public Twinspace, and an interactive game based on the three main areas of research.

IDENTITY. September-January

Local Stereotypes
Personal presentation Padlet
Logo competition
Forums about partners identity marks; celebrities, festivities, ...
